

Healing with Horses Grief Group Spring 2016

Support for kids and teens coping with a death loss

This group is offered for all ages 5-17. We combine equine-assisted activities with peer support to share stories, memories and have fun.

We learn various ways to care for horses and to develop skills in a safe environment.

We talk about grief, how to remember your special person, and ways to take care of self throughout school and during upcoming holidays. You must pre-register to participate.

Dates: April 11th-May 23rd
